Data Safety and Security Review Complete

To: Stefanie Stantcheva
Reviewer: Joseph Gallagher
Review Date: 3/5/2021
Re: Safety Submission ID: DAT21-0180
Public acceptability of climate change mitigation policies

The above referenced Safety submission has been reviewed.

If there are any planned changes to the management of data under this review, please return to the submission workspace to propose an amendment. Review must be completed prior to implementing any changes.

You are required to file a continuing review before **3/4/2022**. If you fail to submit your continuing review before this time, your project will automatically be expired and access to data associated with this review may be impacted. If the project expires, a new submission must be created to reactivate the review and ensure full data access.
